

"Experience 3D Printing" Workshop

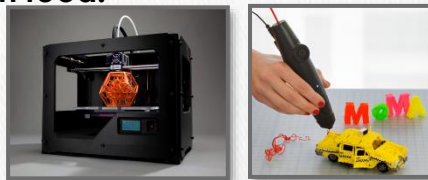

20 Nov 17

3-5pm

Monday

ABOUT 3D PRINTING

3D printing is a growing technology gaining popularity in scientific fields. Today, researchers attempt to use 3D printing to recreate vital organs. Others are printing home decoration items and even food!

As 3D printing picks up pace, we would like to invite you to participate in our workshop

PROGRAMME

Exciting and fun activities have been lined up to engage participants in creating 3D objects. The length of the workshop is approximately 2 hours. Activities scheduled are as follows:

* The length of time for each activity may differ slightly depending on the pace of each workshop.

Ice Breaking	10 minutes
Introduction to 3D Printing	20 minutes
Show and Tell: Understanding the Parts of a 3D Printer	10 minutes
Hands-on! Design and Print Your Own 3D Object	25 minutes
More Hands-on! Doodling with 3D Pens	50 minutes
Review and Finale	5 minutes

WORKSHOP TAKE-AWAY:

Knowledge on 3D Printing Technology
Hands-on Experience with 3D Pen
Personal Object Printed with 3D Printer
Completed Art Work Using 3D Pen
Certificate of Achievement

A 3D printer and 3D pen which will be used in our workshop
